

BISWAJIT SWAIN

Full Stack Developer

Bengaluru, Karnataka, India | +91 7847994668 | biswajitswain7847@gmail.com |

PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with hands-on experience in building responsive and scalable web applications using Python, Django, HTML, CSS, JavaScript, and Oracle Database. Proficient in developing RESTful APIs, designing relational databases, and integrating frontend and backend components. Familiar with Git, SQL, and modern software development practices. Strong problem-solving skills with a passion for writing clean, efficient code and building user-focused applications. Seeking an opportunity to contribute as a Full Stack Developer while continuously learning and growing.

CORE SKILLS

- Programming Languages: Python,
- Web Technologies: HTML, CSS, JavaScript
- Frameworks: Django
- Database Management: Oracle, MySQL
- Data Analysis & Visualization: Excel, Power BI, Tableau, Matplotlib, Seaborn
- Core Competencies: Problem-Solving, Critical Thinking, Communication, Attention to Detail

WORK EXPERIENCE

Full Stack Python Developer Intern — Vrhman

Mar 2026 – Jun 2026

Project: Bike & Car Rental Application

- Developed a full stack bike and car rental web application using Python, Django, HTML, CSS, and JavaScript.
- Designed and implemented backend logic for vehicle listings, bookings, and user management, with data stored in a relational database.
- Built responsive front-end pages for browsing vehicles, managing bookings, and user authentication, working across the full development lifecycle.

AI Developer Intern — DeepSurge AI, Bhubaneswar

Sep 2025 – Mar 2026

Project: AI-Based Road Monitoring System

- Built an AI-driven road monitoring system using computer vision and deep learning to detect road surfaces and extract lane markings from real-time video input.
- Applied edge detection and region-of-interest selection techniques to isolate the roadway and identify lane boundaries under varied lighting and road conditions.
- Generated visual lane overlays to represent road structure, supporting advanced driver-assistance systems (ADAS) and autonomous navigation use cases.
- Collaborated on a 6-month project cycle, contributing to backend logic, data processing, model testing, and performance validation.

PROJECTS

Srota — AI Voice Assistant

- Built Srota, a Python-based voice assistant capable of understanding voice commands and performing automated tasks through speech recognition and natural language processing.
- Integrated core logic with a Django backend and Oracle database to manage user interactions and store assistant data.
- Implemented modular command-handling features, improving response accuracy and extensibility of the assistant.

E-Commerce Website

Technologies: Python, Django, Oracle Database, HTML, CSS, JavaScript

- Developed a full-stack e-commerce web application using Python and Django.
- Designed and managed the Oracle Database for secure and efficient data storage.
- Implemented user authentication, product catalog, shopping cart, and order management features.
- Integrated frontend and backend components to deliver a seamless user experience.

EDUCATION

B.Tech, Computer Science Engineering — GIFT Autonomous, Bhubaneswar

CGPA: 7.62

Affiliated to Biju Patnaik University of Technology | In Progress

Intermediate (10+2) — Swadhin Residential College, Puri, Odisha

67% | 2022

Matriculation — Mahaveer High School, Barimundei, Odisha

60% | 2020
